PUBLIC UTILITIES
COMMISSION

Dear Chairman Caliboso and Commissioners:

SUBJECT: TESTIMONY OF JEFFREY K. ENG
Docket Nos. 2009-0048 and 2009-0049 Public Hearings
Applicants: Molokai Public Utilities, Inc. & Waiola O Molokai, Inc.
Thursday, September 3, 2009, Mitchell Pauole Center, Molokai

I am the Director of the Department of Water Supply for the County of Maui. The County is a customer of Molokai Public Utilities, Inc. (MPU) and Waiola O Molokai, Inc. (WOM). Before I comment on the amended applications of MPU and WOM, I would like to express my appreciation to the Commission for requiring both water utilities to re-submit amended applications supported by audited financial statements. As a result of that requirement, both companies submitted amended applications with lower rate requests than in the original applications.

In regard to the applications before you, my concerns over both applications will be combined and are as follows:

- MPU's last permanent general rate approval was in 2003 and WOM's last permanent general rate approval in 1993. If the companies sincerely desire to reduce rate shock to their customers, then why didn't the companies seek rate relief sooner and on a more frequent basis?

"By Water All Things Find Life"

The Department of Water Supply is an Equal Opportunity provider and employer. To file a complaint of discrimination, write: USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington DC 20250-9410. Or call (202) 720-5964 (voice and TDD)

Honorable Carlito P. Caliboso, Chairman
and Commissioners
State of Hawaii
Public Utilities Commission
September 2, 2009
Page 2

- For more than a year, Molokai Properties Limited (MPL), the parent company of MPU and WOM, has caused fear and uncertainty in their customers, as well as to the county at large, over threats to abandon MPU and WOM. MPL has created an environment of mistrust. Therefore, the applications of MPU and WOM should be given greater than normal scrutiny by the Commission.
- The proposed water rates will be much too high for the communities being served, and they would create significant financial hardship for the customers.
- The regulatory expenses appear to be grossly overstated. Each company is seeking to recover \$165,000 in regulatory expenses or \$330,000 in total. The amounts are extraordinarily inflated and are not reasonable for utilities of their sizes. In Kapalua Water Company's recently approved rate increase, its test year legal expenses are only \$17,816.
- The auditor's reports for both utilities reveal MPL water charges in 2008 to each company. The auditor's reports do not provide details of these charges; therefore, these charges should be investigated.
- The auditor's report for WOM reveals a lease agreement between WOM and its parent, MPL, in which WOM is charged \$32,560 plus applicable taxes per month. Again, the auditor's report does not provide any details; therefore, the basis and reasonableness for this lease agreement needs to be investigated.
- In general, the applications and auditor's reports do not provide much detail on intercompany transactions and charges. These need to be thoroughly investigated.
- We do not support the companies' requests that any reductions in test year revenues, expenses or rate base that would affect the ROR should not reduce the companies' revenue requirement until those reductions plus the requested revenue increases exceed an 8.5 percent ROR. These requests are completely unreasonable. The whole purpose of this proceeding is for the Commission to verify the companies' test year revenues, expenses and rate bases for fairness and reasonableness. If any revenues, expenses or rate base items are deemed

Honorable Carlito P. Caliboso, Chairman
and Commissioners
State of Hawaii
Public Utilities Commission
September 2, 2009
Page 3

to be unfair or unreasonable, then they should be disallowed and the revenue requirement revised accordingly.

- The companies' request for a 2.0 percent ROR is reasonable.

Thank you for the opportunity to present this testimony.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey K. Eng", written in a cursive style.

JEFFREY K. ENG
Director of Water Supply

ALOHA ☺ My name is Kealoha Laemoa. I live on the island of Molokai. I live in the affected area of Maunaloa Molokai. I have 5 people that live with my parents.

I am totally appose to the hike of my water. Due to the fact that our entire family lives on a very fixed income. My father works odd jobs here and there and also has a very part-time job where most people see him down at our local harbor. I also work part-time as a Independent Living Specialist for the island of Moloka'I. I help people that have permanent Disability live on there own. With my job allot or majority of my consumers have to and are forced to live on a very fixed income. My dad has to pay for rent, electric, gas to run our hot water and stove, also water. So when Moloka'I Ranch wants to raise our water bill that is within not our budget. We also have to pay for expenses that a lot of other families pay for like maintaining our vehicles. So think about it can you or your family afford a hike in utilitys when you yourself lives on a very fixed income.

So commissioners I am very much appose to the hike of Wai Ola O Moloka'I water Hike.

Mahalo Nui:

Kealoha Laemoa

WE, the RATEPAYERS and PROPERTY OWNERS in the service areas of MOLOKAI PUBLIC UTILITIES and WAI'OLA MOLOKAI hereby PETITION the PUBLIC UTILITY COMMISSION OF HAWAII and the COUNTY of MAUI, through the offices of MAYOR TAVARES and the MAUI COUNTY COUNCIL, to ensure adequate service at reasonable rates. These utilities are approaching failure of the guarantees in their contract and license for service with the PUBLIC UTILITIES COMMISSION and the people of Hawaii. These failures would result in the cessation of service and/or unjustified rate increases that will create significant life, health, and safety issues for the ratepayers. Their FAILURE to obtain proper operating permits and adequately maintain their infrastructure MUST BE ADDRESSED.

In addition, these utilities and their parent corporation, the MOLOKAI RANCH, must be stopped from continuing to threaten the illegal abandonment of their mandate to provide water to their ratepayers, causing the residents of these areas great emotional stress and greatly devaluing the value of our properties.

WE, the RATEPAYERS and PROPERTY OWNERS in the service areas of MOLOKAI PUBLIC UTILITIES and WAI'OLA MOLOKAI hereby PETITION the PUBLIC UTILITY COMMISSION OF HAWAII and the COUNTY of MAUI, through the offices of MAYOR TAVARES and the MAUI COUNTY COUNCIL, to ensure adequate service at reasonable rates. These utilities are approaching failure of the guarantees in their contract and license for service with the PUBLIC UTILITIES COMMISSION and the people of Hawaii. These failures would result in the cessation of service and/or unjustified rate increases that will create significant life, health, and safety issues for the ratepayers. Their FAILURE to obtain proper operating permits and adequately maintain their infrastructure MUST BE ADDRESSED.

In addition, these utilities and their parent corporation, the MOLOKAI RANCH, must be stopped from continuing to threaten the illegal abandonment of their mandate to provide water to their ratepayers, causing the residents of these areas great emotional stress and greatly devaluing the value of our properties.

WE, the RATEPAYERS and PROPERTY OWNERS in the service areas of MOLOKAI PUBLIC UTILITIES and WAI'OLA MOLOKAI hereby PETITION the PUBLIC UTILITY COMMISSION OF HAWAII and the COUNTY of MAUI, through the offices of MAYOR TAVARES and the MAUI COUNTY COUNCIL, to ensure adequate service at reasonable rates. These utilities are approaching failure of the guarantees in their contract and license for service with the PUBLIC UTILITIES COMMISSION and the people of Hawaii. These failures would result in the cessation of service and/or unjustified rate increases that will create significant life, health, and safety issues for the ratepayers. Their FAILURE to obtain proper operating permits and adequately maintain their infrastructure MUST BE ADDRESSED.

In addition, these utilities and their parent corporation, the MOLOKAI RANCH, must be stopped from continuing to threaten the illegal abandonment of their mandate to provide water to their ratepayers, causing the residents of these areas great emotional stress and greatly devaluing the value of our properties.

Subject Docket No. 2009-0048, Molokai Public Utilities, Inc. and
Docket No. 2009-0049, Wai'ola O Moloka'i, Inc.

To whom it may concern:

Thank you for reading and considering my inputs regarding the above docket numbers addressing the rate increase proposals on Molokai.

I am a half time resident of Molokai and a half time resident in California. I have been keeping up with the water rate increase proposals and the arguments for and against.

A very important aspect of this has not been adequately addressed, in my opinion. There have been assertions (which I claim are valid) that much of the rate increase required to keep the utilities marginally profitable is because the largest customer (their parent company) has left and is no longer consuming very much water as a property owner on Molokai. Even though they left as a business, they retained their property holdings there, much of which used to consume a very large percentage of the water on the West End of the island.

My assertion is that the huge effect this is having on the residual resident water users is mostly due to the billing being based solely on consumption. I have attached to this message a scan of my most recent bill from my water district here in California. I want to highlight for you in particular the line items "Fixed Charge" which is related to distribution cost and other fixed costs of the system, and "Renewal/replacement Charge" which collects a fixed amount from all connections to repair the system. As you can see, for my two-month billing cycle, this amounted to nearly 50% of the total bill. Also, note that the usage is tiered and so small users pay less than big consumers. However, I do not believe that the charges noted above are related to consumption but to the size of the meter and the locale etc.

My contention is that, if a similar plan were mandated for the Molokai utilities in question, the parent company that has abandoned the island would **STILL BE LIABLE FOR THE FIXED AND MAINTENANCE COSTS** even though their consumption is

nil because they still own property with viable system connections. Now, with little consumption, they are able to pay little if any water system costs in support of their own utilities, thereby claiming that for them to get a "fair profit" all costs and profit must come from remaining consumption based rate payers.

Please study my billing example attached and seriously consider this or a variation of this as an alternative that could be mandated for Molokai. This would better spread the fixed cost and repair cost more evenly and certainly to the utilities parent company, who has abandoned the island as a business, and are attempting to extract the full cost plus profit of water (both fixed and variable), from the few remaining users over the now much lower consumption basis. And the fixed and repair costs have not decreased much with their departure, as the consumption has.

Thank you for your consideration. Please forward this plus attachment to any and all parties necessary.
